

## **WP4. Socio-economic issues related to religious slaughtering practices**

**Dr. Mara Miele, University of Cardiff, UK**

To address the concerns, knowledge and information in the general public relating to religious slaughtering practices.

To monitor and address potential conflicts in public debates on religious slaughter practices.

To assess the degrees of transparency in the meat distribution system for halal/shechita products and to identify the possible options for improving the provision of information about religious slaughter (labelling, educational materials and others)
